# CAPTURE EVERY MOMENT IN HIGH QUALITY

Two-Microphone System designed to record human voice to get your dictation transcribed easily with and without speech recognition

### RECORD CONFERENCES IN STEREO

The two microphones in a 90° layout enable high quality recording in a realistic stereo feeling. You can then quickly and easily share the MP3 file with others.

### DICTATION MODE FOR QUIET ENVIRONMENT

No matter from which angle you speak into the device, the omni-directional microphones pick up your voice accurately. In this mode, you can hold the device in your hand any way you like.

### DICTATION MODE FOR NOISY ENVIRONMENT

The main microphone is recording in a high directionality mode together with noise cancellation in order to focus on the voice. The noise from the surroundings will be supressed to a minimum.

# MOBILE DICTATION, SECURE FILE MANAGEMENT, FAST SHARING

You decide when, where and how you dictate. Two microphones ensure flawless speech quality in every situation.
Use WiFi to share your files from the DS-9500*.

**WiFi***

wireless sharing
for fast workflows

**LARGE COLOR DISPLAY**

2.4-inch color display
for a clear overview

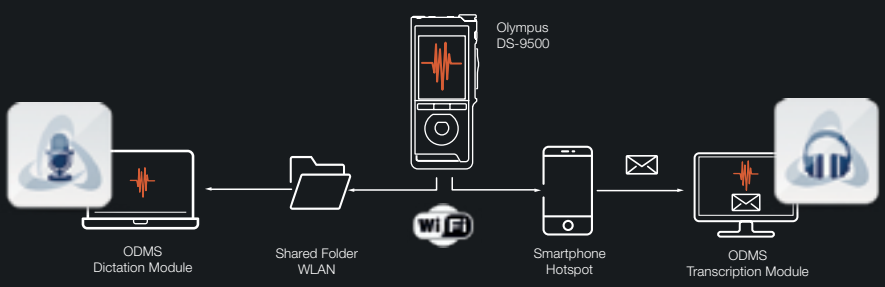
# SHARE FUNCTION

Share your dictation wherever you are

## YOUR FILES AT A GLANCE

With the workgroup installation of ODMS R7 and Olympus SCP, you can see the status of your dictations in the list view on your DS-9500. Being in your WLAN icons inform you about the transcription progress and let you know, when it is finished.



With the DS-9500, even when you're on the go, you can send your dictations over WiFi to your chosen email recipients.

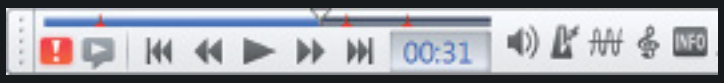
# TRANSCRIPTION WITH AS-9000

Increase the efficiency of your workflow

## THE AS-9000 TRANSCRIPTION KIT IS THE PERFECT ADDITION TO YOUR VOICE RECORDER

It includes a stereo transcription headset, a USB foot pedal with four configurable buttons, as well as professional and highly secure dictation management software.

ODMS Transcription module provides a seemless interface to Dragon NaturallySpeaking* and reduces time for transcription.



*Dragon™ must be purchased and installed separately

AS-9000 includes RS-31H foot switch, E-102 transcription headset, ODMS Transcription Module (Single License)

The Olympus Dictation Management System (ODMS) software allows you to design your own transcription workflow. The seamless interface to Dragon NaturallySpeaking* by Nuance optionally boosts your transcription.

Check out how ODMS R7 enhances your wireless dictation workflow.

*must be purchased separately

# EASY AND SECURE MANAGEMENT

## with ODMS software

### PROTECT YOUR FILES

256-Bit AES Encryption at a high security level.

With the Data Loss Prevention the device can be operated in a read-only mode.

Secure your dictation device with a PIN.
